Cisco CCNA (200-301)

Identifying Security Awareness Program Elements

Learning Objective: Define the elements of a basic security policy.

Description: Every company should have a security awareness program. Find out what it takes to make an effective security program for the non-security individual.

Q: What is a Security Awareness Program?

- User Awareness

    - People do not know what they don't know.

- Training

    - Helping people to understand what they need to know
    - every organization will customize it according to need
    - Every organization may also modify according to compliance (e.g., ISO 270001)

- Physical Access Control

    - Locks
    - Biometrics
    - Camera

Endnotes, External and Etc.

5.2 Describe security program elements (user awareness, training, and physical access control)
